Hyde Park Would Dump Undesirables in Englewood

Hyde Park, Kenwood and a few other of the supposed to be aristocratic districts over east, are wonderfully kind in their project of "zoning" and propose that a special district shall be assigned colored people west of State st. and that those residing east of State be induced to change their residence. Why not go a bit farther and ask that the undesirables in the so-called "levee" be also "zoned" off to the Englewood territory? These nervy districts who have managed by some means to secure more boulevard and park supported streets than the remainder of the south side combined, now modestly (?) ask that they be cleaned up and the element they do not want be swept off into the district west of State st., which happens to be Englewood. It is time for the district "west of State st." to get together and claim some of their rights and privileges, and not be the dumping ground of undesirables. Every organization and club in our territory should protest on this zoning scheme so far as it affects Englewood, and send their protests to the city council and the mayor at once.

Preaching Purity; Publishing Impurity

The daily papers without exception are making first page stuff of the vilest scandalous matter that can possibly be squeezed through the mails, even under special privileges, in the Stillman divorce and other sensational cases, yet their editorial pages contain sermon-like editorials on the good morals of the world and urging reform and purity. The most salacious details that would be censured in many countries are printed and even illustrated in some prints and the papers will be found in the hands of the young as well as the old and few homes but receive their paper regularly and the reading of them is encouraged in the public schools and elsewhere, thus placing in the hands of the immature and innocent the most demoralizing literature they could secure. Publishers claim they publish only what the public demands, but we venture to say that it is but a small proportion of their readers that care for such rotten drivel as follows in the wake of a divorce suit, and we believe that a daily that would keep its columns free from it would be recognized by all good people.

What the Strikes Are Costing Us

It would be impossible to estimate the millions of dollars the unsettled condition of the buildings trades are costing Chicago, and in our own district we are suffering many thousands. Many projected new buildings which would have been under way have been abandoned for the year, and even small homes, bungalows and residences have not been started because the builder could not tell what the cost might be. Then there is the many thousands of wages of our thousands of artisans now idle, all of which is making serious inroads on the regular business of our merchants. Can not the warring factions get together and arbitrate their grievances so that the general public as well as themselves should not suffer? A few hot heads and intemperate men on either side can do a great amount of injury right now and it is time for the real men who compose the unions and the contractors to exercise their good sense and judgment and get together for the common good of the country. Get together, gentlemen.

Sunday Afternoon Concert

Under the auspices of the Civic Music association, a splendid musical program was given last Sunday afternoon at the Hamilton Park Field House. Ramon Girvin's junior orchestra of the American Conservatory, Miss Edna Barnes, soprano, and little Miss Davis, nine-year-old harpist, furnished the music.

The numbers given by the orchestra proved that Mr. Girvin is an excellent director.

Miss Barnes is the possessor of a beautiful voice and sang with much authority and feeling.

Little Miss Davis played the harp in a most remarkable manner for one so young.

Murderer Held Accountable.

The commandment "Thou shalt not kill" has an application not generally recognized. It is this, that moral responsibility forbids one to kill time.

MARLOWE HIPPODROME

The announced change in the management of the Marlowe theatre took place this week and Mr. Harry Smith has assumed the lease as well as the management and will improve the house in many ways, introducing new features and a much better class of movies, as well as higher class vaudeville. The Marlowe programs henceforth will consist not only of a high class movie show with a good comedy, travelogues and topical events, but there will be every night at least five big vaudeville acts.

On every Tuesday night they will have the local song contest with a series of valuable prizes, which the favor of the audience will award to some local singer. On Wednesday night as a special feature they will offer a prize to the best neighborhood bathing costume revue, no one but local parties allowed to compete and the winner to be awarded a handsome and valuable prize.

On every Friday there will be a professional revue of from seven to ten big vaudeville acts, and on Saturday six big acts of the latest and best in vaudeville, as well as a high class first run feature picture, besides the comedy and travel pictures and topical events and screen reviews.

The Marlowe has gone back to the pre-war prices and no house in the town is offering half so good a show at such reasonable prices as ten, fifteen and twenty-five cents, plus the war tax. The reputation is the largest and best show in town at the lowest prices.

Wonderful matinees for the ladies and children Saturdays, also Sunday, and special programs. Complete change of program for the Sunday shows. Don't miss the Marlowe Hippodrome and you will enjoy a good show at very low prices.

Fox Climbs Tree.

Another of the red fox's accomplishments is his ability to climb certain trees, where the inclination of the trunk and the accessibility of the lower limbs admit of it, says the American Forestry Magazine. His being able to perform this feat often saves his life, as does also his knowing how to swim.

Old Soldiers Need Autos Memorial Day

Meade Post G. A. R. will need quite a number of automobiles to carry their comrades to the different cemeteries where they will decorate their dead comrades' graves in the morning of Memorial Day, Monday, May 30th. They will want to leave Memorial Hall, 6236 Princeton Ave. about 8:30 and return before noon, and will feel deeply grateful to those who will volunteer the use of their cars for that occasion. Commander Sargent and staff ask that those who can and will render this patriotic service, leave their names and size of car at Memorial Hall or with any comrades of Meade Post.

Diminutive Only in Stature.

It is related of Philetas of Cos, distinguished about 320 B. C. as a poet and grammarian, that he was so diminutive in size and avoirdupois that he carried metal weights in his clothing to prevent his being blown away by the wind. He was the preceptor of Ptolemy Philadelphus.

Mrs. Dee Entertains D. of V.

Mrs. Ola Fairmon Dee, 9922 Charles st., past department president of the Daughters of Veterans, held a reunion of the officers who served with her during her term of 1919, and a large number were present to enjoy her hospitality. Mrs. Mary Sullivan, of Joliet, was among the out-of-town guests. After an exchange of reminiscences and a social hour, games were played. Bunco proved very popular and Mrs. Pearl Steinmetz, D. of V. department president of 1916 won first prize and Mrs. Sullivan the second, dainty hand made Dutch aprons. Mrs. Olive Angel carried off the consolation, an incense burner. Mrs. Dee means to make this reunion an annual affair.

Sleeping Sickness.

Medical experts disagree in their conclusions as to the exact nature of sleeping sickness. Some forms of "sleeping sickness" are not unlike brain fever, while others indicate symptoms much similar to spinal meningitis. Physicians advise caution against undue exposure to the disease until more exact knowledge of its cause is ascertained.

Where were you THEN and where are you TODAY?

Where were you when Henry Ford was trying to raise the first few thousands of dollars necessary to start the enormous industry known as the Ford Motor Company? Had you invested $1,000 in Ford's stock, IT WOULD HAVE BROUGHT YOU IN 1919 $122,700, TO SAY NOTHING OF THE ENORMOUS DIVIDENDS IT HAS PAID.

If you really had such an opportunity, would you grasp it?
SUCH AN OPPORTUNITY IS NOW OFFERED YOU.
The Tractor Industry today stands on about the same level as the Automobile Industry did at the time Henry Ford offered his stock for sale.

In the agricultural field the tractor market is usually based on the number of farms of one hundred acres or more. According to the last census figures, there are 2,669,391 farms of this size or larger in the United States alone, and 1,438,069 farms averaging very close to one hundred acres. The potential tractor market, therefore, can be conservatively estimated at 3,000,000 tractors, which will be absorbed within the next ten years. The present tractor output of the country is between two and three hundredthousand per year, with a large part of this output immediately taken up for replacement, the life of the average tractor being less than three years.

The Nelson-Four-Wheel Drive Tractor is a revolution in tractor construction. It is built on entirely new mechanical lines, designed to give universal, all-year-around service.

It is dependable, easy and economical to operate.
Its unusual mechanical construction fits it to work on bottom land or steep, rocky hillside surfaces and to give the same steady, efficient service in winter and summer.
You are herewith invited to become a stockholder in the corporation manufacturing the Nelson Tractor.
A SMALL AMOUNT OF PREFERRED (8% Cumulative) STOCK IS OFFERED BY US SUBJECT TO PRIOR SALE AND ADVANCE IN PRICE. Subscriptions will be accepted in the order received. All reservations for stock must be made before May 10 of this year.

With the tractor industry in its infancy, its markets are yet almost wholly undeveloped, and with a product of such a wide range of usefulness, it is obvious that the stock of the Nelson Manufacturing Corporation has possibilities of great and increasing value, far beyond the ordinary realization from investment in products not having these almost unlimited fields of activity.
It is rarely that such an opportunity is offered to the public, for participation in an industry which is rapidly becoming one of the great enterprises of the present day.

7% AND SAFETY. Our first mortgages upon improved and producing farms have never lost a penny of interest or principal to our hundreds of satisfied customers. They are secured by a first lien upon indestructable property—agricultural land which yields annual and successive harvests which always find a ready market. These securities are non-fluctuating—in which respect they differ from a bond or a stock investment which is always affected by market conditions. Every farm mortgage which we make remains continuously under our supervision until it is paid off in full. Interest and principal are collected and remitted to you without charge. Such an investment is as simple as a savings account and pays over twice as much.

In a generation we have built up a reputation for care and conservatism which has brought us customers from over 30 states. We will be glad to send you our booklet and list of desirable mortgages without obligation.

Ogden Park Activities

The Grammar school baseball league began last week. Six of the seven teams played one or two games. The Earle, the Copernicus, the Altgeld, and the Wentworth each won a game.

The indoor track meet held at Ogden as a part of the Boys' Week celebration was participated in by a large number of boys. Ask them whether they had a good time, especially daring the apple and candy scramble.

The pupils of Mrs. Norbeck and the Civic Music chorus of Armour Square gave a performance of the operetta, "Jack and the Bean Stalk," Wednesday evening, May 11th. The part of the giant was sung by Mr. Stinson with great effect. Little Margaret Burns took the part of Jack with real spirit.

Boys!—remember the kite tournament is being held next Saturday in the big field. Come with tail kites, bow kites, box kites or novelty kites and compete. And bring along your dads and mothers to see the fun. We expect some real surprises from some of the boys who have already entered.

On Wednesday afternoon the children who have been coming to the story hour had a party and entertainment. This will mark the end of the story hour for a period. We hope to continue later in the summer with outdoor features. The children's playground and the outdoor gymnasium are both open afternoons. Come over and get some of our supply of sunshine, air and exercise.

The Impossible

Modern achievements are proving every day that, what a few years ago was considered impossible, is today being done.

In no department of life is this being more fully demonstrated than in healing the sick. A lady writes us: "Had I known sooner about Naprapathy I would have been saved many years of suffering."

Whether you are ill or not it will pay you to investigate Naprapathy. Its ability to heal where every other effort had failed makes it worthy of any person's consideration.

Dr. Samuel C. Hunt (Naprapathic physician) now located in Englewood, has for years not only been practicing Naprapathy, but many of the most efficient methods of non-medical therapy.

He will gladly tell you whether or not your case is amenable to his treatments. It may save you, or your friends, or some member of your family, much suffering to know what Dr. Hunt has to offer you.

Boys Will Be Boys

Based on the story by Irvin S. Cobb and the play by Charles O'Brien Kennedy

What would you do if you could be a child again? Peep O'Day (the principal character in Goldwyn's picturization of Irvin S. Cobb's famous story, "Boys Will Be Boys," with Will Rogers in the stellar role, doesn't actually become a boy again, for his hair remains grizzled and his figure stout, but he lives the boyhood he never had. It is a heart-warming comedy. It's the perfect Will Rogers role—human character, human [illegible] and human humor interpreted by the humanest actor on the screen.

SULLIVAN'S SENSE AND NONSENSE

Your Little Wife

Who plans to make your future bright?
Who cooks to tempt your appetite?
Your little wife.

Who tells her women friends that you
Are one grand husband through and through?
Who's the best girl you ever knew?
Your little wife.

Who pats your cheek when you get home?
Who smooths the thin hair on your dome?
Your little wife.

Who looks at you, her brown eyes clear,
And snuggling to you, extra near,
Says, "This is pay day, ain't it, dear?"
Your little wife.

Casey says, "Skin deep beauty is all right if the gurl do hov money."

The world is filled with "tainted money," but few people object to it on that account.

It is pretty hard to prescribe a line of action when a homely woman tries to flirt with a man.

The sweet girl graduate will now proceed to enter competition with the June brides for front page stuff.

Casey says, "Yis, the pictures in the Rogue's gallery are framed in guilt."

Grand Crossing wants to change its common name to something more aristocratic. Why not make it "East Englewood?" That would be pretty and mean something.

The day is fast approaching on which we show our respect (?) for the honored soldier dead by having prize fights, base ball games and beauty shows in their honor.

Someone was telling Casey that astronomers were perfecting an invention to weigh light, at which that philosopher remarked, "Shure Oi do be knowin' butchers thot hov bin doin' thot fer years and years."

It will be either tallow candles or the brilliant electric lights for 63rd st. very soon, and if some of the stingy guys don't come across more liberally it looks very much like tallow candles.

It was suggested, "With those short skirts, I should think the young lady's ankles would get cold," and the wise rejoinder from an envious one was, "Umph! How could her ankles get cold with that beautiful neck piece?"
